$\qquad$ Name $\qquad$ Use the map to fill in the blanks below.

A is located __north $\qquad$ of the Equator, therefore, the latitude is $\qquad$ 30 N -.
A is located __west $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$
$\qquad$ .
$B$ is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
$B$ is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ .
$C$ is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
$C$ is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ .
$D$ is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
$D$ is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ .
$E$ is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
$E$ is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ _.
$F$ is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
$F$ is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ .
$G$ is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
$G$ is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ .

H is located $\qquad$ of the Equator, therefore, the latitude is $\qquad$ .
H is located $\qquad$ of the Prime Meridian; therefore, the longitude is $\qquad$ .

## Give the coordinates

$\qquad$ | $[$ | , |  |
